

General Guidelines for Written Report on Land Use Changes

Write a 5 paragraph essay that includes data collected from the maps/images and information from the news articles that your group read.

Essay format:

- 12 point font
- double space

Staple together and turn in the following by _____:

- Essay
- Data sheets (originals please – it is OK if they are messy or hard to read)
- News article notes

Paragraph 1: What does the data say about land use changes in this area?

Paragraph 2: What do the articles say about the land use changes in the area?

Paragraph 3: Does the data make sense or match up with the information in the articles?
Why or why not?

Paragraph 4: Are there concerns about the land use changes and how they will affect
available land for agriculture, natural areas, and human population in the future?

Paragraph 5: What do you think should be done about this issue?
